

Employment Region Industry profile

Capital Region Employment Region

Release date: 25 September 2025

Overview

In August 2025, there were around 397,800 people employed in the Capital Region Employment Region. The 5 largest employing industries in the region were Public Administration and Safety, Health Care and Social Assistance, Professional, Scientific and Technical Services, Education and Training, and Construction. Together these 5 industries accounted for 66% of employment in the region.

Over the year to August 2025, employment in:

- Public Administration and Safety fell by 8.7% to stand at 92,700
- Health Care and Social Assistance rose by 7.9% to stand at 51,800
- Professional, Scientific and Technical Services rose by 4.0% to stand at 46,900.

In Public Administration and Safety in the Capital Region Employment Region, 91% of workers were employed full-time; 53% were female; and the median age of the workforce was 41.

Employment by industry, August 2025 and August 2024

Source: ABS Labour Force Survey*, Detailed, four quarter averages, August 2025. Note that total employment for the region (four quarter averaged data) will not match data published in the Employment Region Labour Market dashboards (modelled estimates).

*ABS Labour Force Survey data are based on the combined SA4s of Australian Capital Territory and Capital Region.

Notes: Data are the latest available. A high degree of caution should be exercised when interpreting data at the regional level, particularly in regards to percentage changes, given the volatility of the underlying data. For any enquiries related to the data in this report, please contact RegionalWorkforceAssessment@jobsandskills.gov.au

Five largest employing industries: key statistics

Public Administration and Safety

Source: ABS Labour Force Survey, Detailed, four quarter averages, August 2025, except youth and mature age data which are from the ABS Census of Population and Housing, 2021.

Notes: In each chart, the solid line is the level of employment and the dotted line is a simple linear trend line for the 10 year period. Given the volatility of the underlying data, employment estimates should be treated with a high degree of caution. Particular focus should be placed on the employment series over time to ascertain more reliable long-term growth trends.

Employment characteristics by Industry

Which industries are youth (aged 15-24) employed in?

Source: ABS Census of Population and Housing, 2021.

Which industries are mature age persons (aged 55+) employed in?

Source: ABS Census of Population and Housing, 2021. Note: SA2 level Census data have been aggregated to the Employment Region level.

Gender share by industry
