## **6. Education and Training Advisory Group | Friday 10 October 2025**

Following the review of the operation of the Education and Training Reference Group and the subsequent transition to the Education and Training Advisory Group (ETAG) which serves as an inclusive, tripartite-plus platform, the ETAG scheduled its first meeting for Friday 10 October 2025. Designed to provide broad-based input and strategic advice on key education and training system initiatives currently being undertaken by JSA.

The meeting agenda includes an update on JSA's intersectional work to seek ETAG member input on priority areas, including:

- Tertiary Harmonisation – update and insights into the progress towards Tertiary Harmonisation
- Higher Education Outcomes – insights into graduate success, employability, and alignment with labour market needs
- Pathways between VET and Higher Education – improving transitions and integration across sectors
- Graduate Mobility – understanding patterns of movement across regions, industries, and qualifications
- Training and Occupational Pathways – mapping education and training to evolving occupational demands
