Labour Market Dashboard

Data current as at 15 October 2026
Refer to source notes for data reference periods

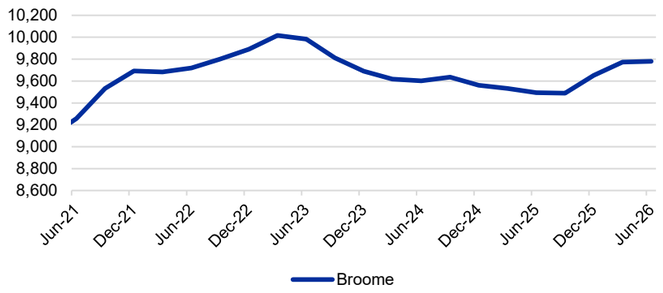

This monthly **Labour Market Dashboard** provides select key indicators for the labour market by Employment Region with available data. For this Employment Region, given the relevant SA4 can only provide a poor proxy, ABS Labour Force data have been replaced with DEWR Small Area Labour Markets quarterly smoothed estimates (labour force, unemployment and the unemployment rate) and 2021 ABS Census data (largest employing industries), for a more geographically representative fit.

Labour market summary table

	Labour Force			Unemployment			Unemployment rate	
	Jun-26	Jun-25	Change	Jun-26	Jun-25	Change	Jun-26	Jun-25
Broome	9,771	9,490	3.0%	390	381	2.5%	4.0%	4.0%

Data are not readily available by Employment Region. Given the relevant SA4 can only provide a poor proxy for this Employment Region, apportioned SALM SA2 data have been used for select labour market indicators (labour force, unemployment and the unemployment rate) and ABS 2021 Census data for the largest employing industries, in lieu of ABS Labour Force data. For Employment Regions with multiple SA2s, aggregated SALM labour force and unemployment estimates have been used to derive unemployment rates for this Employment Region. The JobSeeker income support payment data are apportioned to Employment Regions using an SA2 based concordance. For enquiries related to this dashboard, contact RegionalWorkforceAssessment@jobsandskills.gov.au.
